

Field Bulletin

- New US \$10 software
- SC66 & ZT1200

Bulletin #:	FG00106A
Bulletin Date:	February 9, 2006
Subject:	New US \$10 software release
Affected Model(s):	SC660X US & ZT120X US

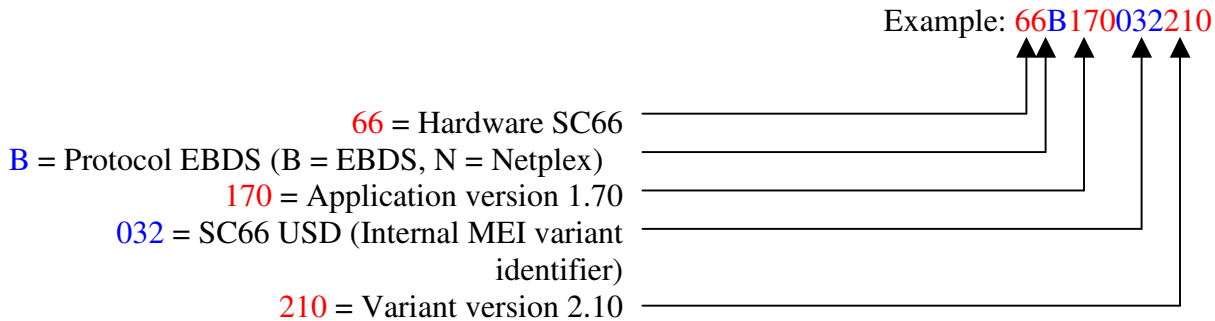

Summary:

The new US \$10 currency release to the public is scheduled for March 2nd 2006. This bulletin covers how to interpret MEI's file name configurations for the new \$10 software and how MEI plans to distribute the software to our customer base.

Detail:

The MEI SC66 versions of the software for the new \$10 are located in table 1.

SC66 .xcf file name (for Flash jurisdictions) configuration decoder for table 1

SC66 .hex file name (for Prom jurisdictions) configuration decoder for table 1

Questions should be directed to MEI Technical Support at 1-800-345-8172 or our web site: www.meiglobal.com

The MEI **ZT1200** versions of the software for the new \$10 are located in table 2.

File name configuration decoder for table 2

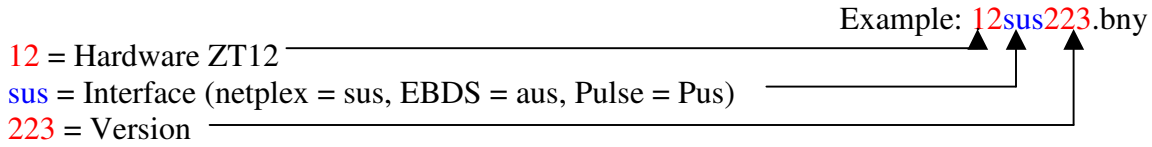

Table 1

SC66 Interface supported	SC66 software (this is the SC application & variant software combined)	Flash or PROM Jurisdictions
Netplex	66N106032210.xcf	Flash
EBDS	66B170032210.xcf	Flash
Netplex	282444201.hex	PROM
EBDS	282234130.hex	PROM

Table 2

ZT1200 Interface supported	ZT1200 software (code) Version	Flash or PROM Jurisdictions
Netplex (IGT)	12sus223.bny	Flash & PROM
Pulse (IGT)	12pus132.bny	Flash & PROM
EBDS	12aus400.bny	Flash & PROM

Questions should be directed to MEI Technical Support at 1-800-345-8172 or our web site: www.meiglobal.com
