Field Bulletin

- New PCB Heat Shield
- SC83/66

Bulletin #:	**F00205**
Bulletin Date:	**February 18, 2005**
Subject:	**PCB heat shield for Platform BEG**
Affected Model(s)	**SC83/66**

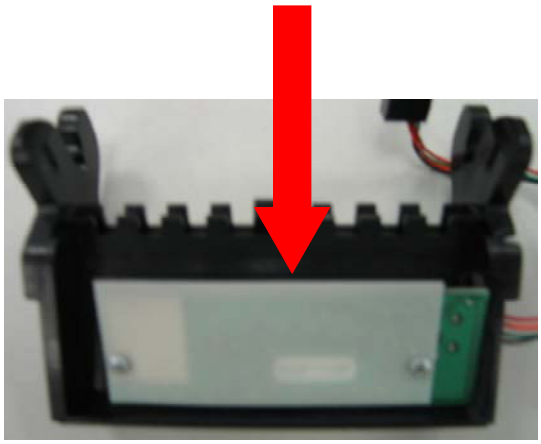
Summary:

A PCB heat shield that covers the bottom of the LED PCB board has been added to the Platform BEG kit. This part will also be made available separately in the event that the customer wants to install the PCB heat shield to their existing field base.

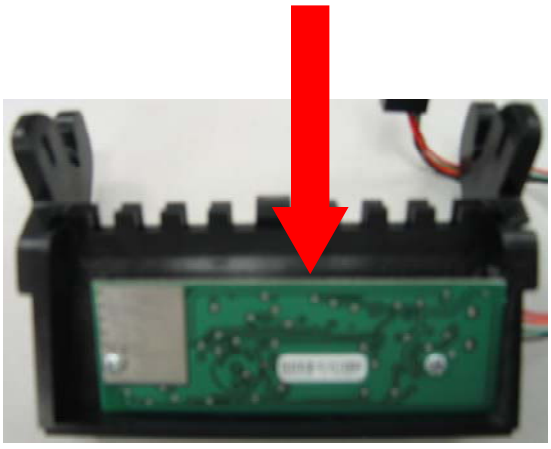
Details:

The PCB heat shield prevents a slot technician/attendant from accidentally making contact with the PCB when removing or installing a SC83/66 Acceptor. The location of the PCB heat shield is shown below.

Platform BEG with PCB heat shield



Platform BEG without PCB heat shield



Action:

The PCB heat shield is an **optional** part that can be retrofitted onto the exiting field base of Platform BEG's. It can be ordered separately by contacting your MEI representative.
