

INVASION

THE ABDUCTORS

RETURNS

HAPP CONTROLS is proud to announce a limited run of the great action packed kit

THE STORY BEHIND INVASION...

There was a time, thousands of years ago, when "visitors" arrived on earth and chose humans for a great experiment. They gave humans the ability to learn in order to watch them evolve and expand their minds beyond their primitive means.

Over time, the "visitors" discovered they could use the human brain to power their own machines, as it was better and more efficient than their synthetic devices. And, there was a replenishing supply growing on planet earth.

Now the experiment is complete and the "visitors" have returned to harvest their crop. At this moment, their great ships are arriving at major cities around the globe preparing to conquer and claim what is Rightfully theirs....the human race

To stop the invasion you must complete four separate missions by defeating the invading aliens that are abducting and mutating humans, snatching monuments and creating havoc in the world. The fate of the planet is in your hands.
