Charles Turnbull Named CEO of the Suzo-Happ Group

ELK GROVE, IL (OCTOBER 13, 2006).....Charles E. Turnbull has been named President and Chief Executive Officer of the Suzo-Happ Group, a leading supplier to the Gaming, Amusement and Industrial industries. Mr. Turnbull will be responsible for all the Suzo-Happ Group companies including Happ, Suzo, Suzo UK, Suzo South America, Advanced Electronic Systems, Inc., ProSource and Mazzco Billiards.

Mr. Turnbull has an extensive background leading both public and private businesses. Recently, he served as President and CEO of Sagus International, Inc., a private equity owned manufacturer of classroom furniture with five divisions, four locations and 1,000 employees. Prior to that, he served for three years as President of Zebra Technologies, a publicly-traded manufacturer (NASDAQ: ZBRA) of computer printers for bar-coding and supply chain applications with 2,000 employees in six U.S. and European facilities. Mr. Turnbull also formed a new company, InTone Corporation, with private equity backing to provide a global platform in the office imaging supplies market. Earlier in his career, Mr. Turnbull spent 16 years with Avery Dennison (NYSE: AVY), a Fortune 500 company, managing sales/marketing units, leading three divisions, and ultimately serving as a Corporate Officer and Vice President/General Manager for the company. He holds an Industrial Engineering degree from the University of Oklahoma and a Masters of Business Administration from the Harvard Business School.

Chuck Turnbull said “I am excited to be part of the Suzo-Happ Group and look forward helping the organization achieve its goal of becoming the leading supplier within its industries.” “As the Suzo-Happ Group has evolved from a domestic to a global business with 16 locations throughout the world, the organization needed a leader with multi-national experience”, noted Jim Norton, Managing Director of Pflingsten Partners. “Chuck brings engineering, international and business process experience to a strong existing management team. Together they will be able to serve the company’s market even more effectively and drive continued growth.”

The Suzo-Happ Group was formed in 2004 with the merger of Suzo International and Happ Controls and the additional merger of Advanced Electronic Systems, Inc. in 2005. The combination of these three successful organizations holds a global leadership position in the gaming and amusement parts and accessories market. The combined organization services customers in nearly 80 countries with

GAMING, AMUSEMENT AND INDUSTRIAL COMPONENTS
