

## TIME CRISIS II BY NAMCO

### GUN MAINTENANCE

#### MoPLAY/MoMAINTENANCE

Time Crisis II has to be one of the finest games produced in the last year. The recoil gun is one of the positive factors for game play. With high play comes more maintenance.

#### YING/YANG

The gun has its good and bad points.

- The cable is short enough so the gun won't hit the floor if dropped. Everyone should design guns with this feature.
- A bad point is the fact that the links can catch on the cable.
- The gun is in the mid \$300 range and the cable at about \$100.
- The holster has a sharp edge that needs to be protected.

#### CHEAP PROTECTION

Happ Control now has a kit for under \$10 that protects the gun. It includes two sided tape and the protector. This will help save the gun.

The kit will also work with Time Crisis I and Point Blank guns. Call Cindy at Happ at 1-888-BUY-HAPP to order your kits.
