# Galaxy Dart Game Installation Instructions for 19" LCD Conversion Kit
## SUZO-HAPP Part Number 49-2870-00

### Instructions To Remove VGA Monitor from Galaxy Dart Cabinet

1) Unplug all power lines from outlet and remove power cord from unit
2) Open and remove front bezel from cabinet
3) Disconnect power harness from current VGA and remove
4) Clean cabinet wth air spray and/or soft brush.

### Instructions To Install 19" LCD Conversion Kit (49-2870-00)

1) First Install the 2 mounting side brackets (49-2866-00 & 49-2867-00) and front bracket (49-2868-00) to "C" bracket part of cabinet using (2) 6-32 nuts (42-0056-00).
2) Install top bracket (49-2869-00) on side brackets using (2) 8-32 x 3/8 Screws (43-1319-00), don't screw (2) 8-32 x 1/2" (43-2354-00) flange screws to the cabinet until 19" LCD has been in stalled first, then tighten flange screws from top of Cabinet to adjust LCD to front bezel
3) Attach 49-2770-00 glass to the LCD monitor 49-2604-30 using the foam tape. Tape needs to be applied to the outer edge corners of the LCD. Apply the glass panel to the LCD. Wrap gaffers tape (39-0199 - IN) around edges of panel and glass overlay, leaving 1/4" gap at each corner.
4) Connect VGA cable and power plug into LCD.
5) Install 19" LCD & glass overlay assembly to main frame, using (4) 6-32 Nuts (42-0056-00) and (2) screws on either side
6) 19" LCD with glass overlay (49-2604-36) is supplied with power cord cable and HD15 male/female right angle adapter w/cable exit 1 (49-2485-HD15)
7) Position remote LCD control on top door attached to speaker
8) Re-attach the power cord to the cabinet and plug into wall outlet.

### Instructions To Set Up 19" LCD Kit on Galaxy Dart Cabinet

1) When the unit is powered up the green LED on the remote control board should light up.
2) The cabinet will beep as the unit runs through it's power up sequence.
3) Press the "auto" button on the remote control board to lock the LCD Monitor to the video signal being supplied by the game cabinet.
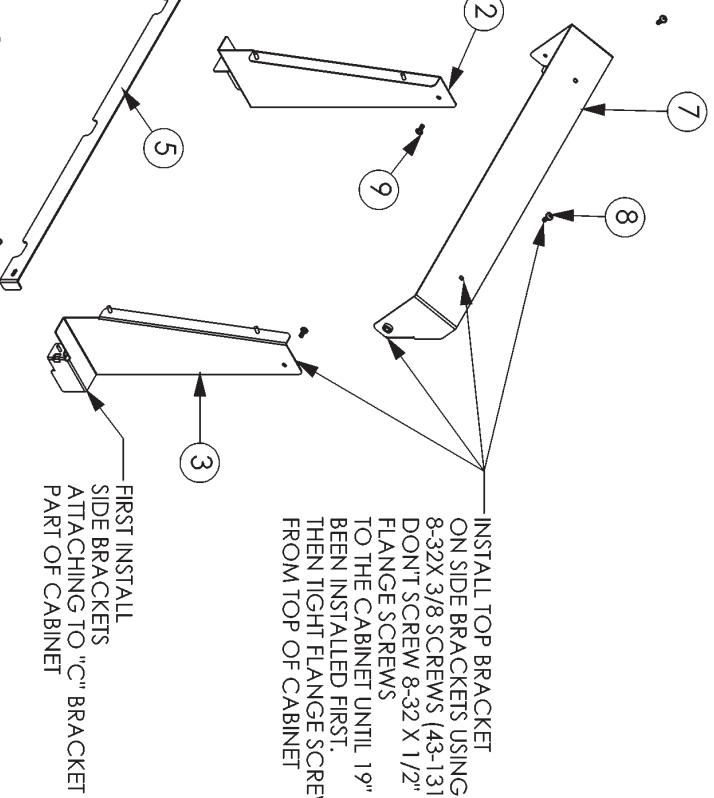

### General Information

1) This 19" LCD Conversion Kit is for current known functioning machines
2) 19" LCD is designed to work with a CGA 8-Liner signal, and works with a CGA to SXGA 1280 x 1024 signal for use with 19" LCD kit on Galaxy Dart Cabinet
3) Cabinet is not shown for clarity.
