

# WHAT IS THIS BLACK PLASTIC SPACER FOR??

In April 2002, Incredible Technologies have updated their control panel design. Due to this redesigned control panel a new 3" Trackball design was developed for use within this new control panel design.

The black plastic spacer that has shipped with this trackball is required to be used for the control panels prior to Golden Tee Fore 2003. To make easy to understand please review the following illustrations that show you both types of control panels along with the usage of the black plastic washer.

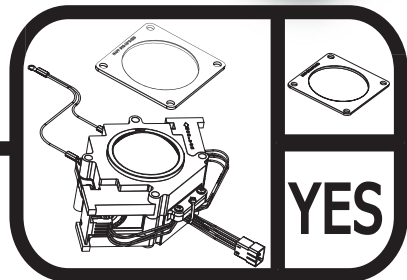

## GOLDEN TEE AND GOLDEN TEE FORE 2002 (FACTORY CONTROL PANELS)

Be certain after trackball install that the black plastic ring is flush to the top of the graphic of the control panel.

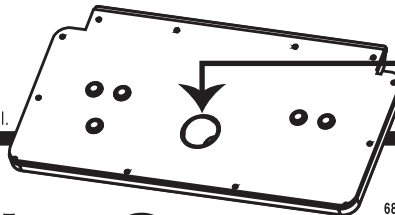

**NOTE**  
There will be 4 or 8 carriage bolts visible from the outside of the control panel

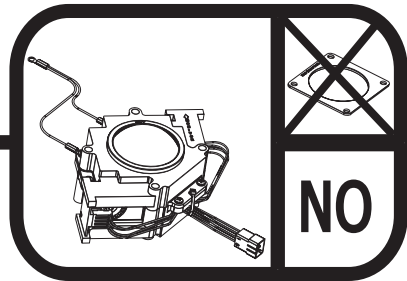

## GOLDEN TEE FORE 2003 (FACTORY OR CONVERTED CONTROL PANELS)

Be certain after trackball install that the black plastic ring is flush to the top of the graphic of the control panel.

**NOTE**  
There will be NO carriage bolts visible!
