## The Ultimate System to Safeguard Gaming Machines from the Dangers of Power Disturbances

The Power Pro intelligent surge suppression is ideally suited to protect gaming systems from the adverse effects of power fluctuations. It provides professional-grade protection from power disturbances on data and power lines that can degrade machine performance, render equipment inoperable, and compromise the profitability of your gaming business.

This system ensures the highest level of protection against destructive spikes, surges, and inductive transients than can cause disruptions, downtime, and catastrophic damage. Our innovative product line offers Cloud Remote Access and real time IP command line interface control solutions that enable you to diagnose gaming equipment intelligently and reboot power remotely.

### Intelligent Protection for Gaming Systems

- Advanced Power Protection
- Intelligent Diagnostics
- Remote Access
- Cloud or IP Control
- Connected Equipment Warranty

### Features:

- Protects equipment from power related downtime
- Does not sacrifice itself, never requires reset
- Improves the performance of connected equipment
- Provides "best in class" advanced protection from surges, spikes, lightning, and electronic noise event
- Includes connected equipment warranty to protect customers from power related Acts of God
