CashComplete™

CDS-820j

Self-Service Automation Of Bulk Coin Deposit

Powerful Cash Deposit System

cashcomplete.com

Designed for Best User Experience

The CDS-820j is the latests self-service bulk coin deposit solution. Offering an intuitive user interface, on a 7"touch screen the CDS-820j is one of the most reliable solutions with prolonged uptime, all while maintaining an attractive price.
Security in Focus

The cash is securely stored in the safes which are available with both front and rear access. They are equipped with awareness mirrors for preventing shoulder surfing and are prepared for any type of surveillance and portrait cameras, all to make customer experience safe and pleasant.

Designed for the Best Customer Experience

The ergonomic design allows comfortable and reliable operation through 15" touch screen. The interaction between the user and the machine is carefully thought through and includes customer guidance through illuminated indicators. Intuitively designed to be easy to use regardless of any physical limitations.

Highest Reliability and Uptime

The CDS-820j is built around the best coin and note technology available on the market, offering you a premium product. User interface and technology have been carefully developed, tested and verified to create trouble free operations with the absolute highest reliability and maximum uptime.
Speed up the cash handling process and increase profitability

Direct deposit to customer account thanks to teller application integration

Stay connected with our unique CashComplete™ Connect software

Superior Financial and Operational Control

CashComplete™ Connect is the ultimate solution for superior financial and operational control of cash. The management software can be used outside the CashComplete™ device and shared by local departments for faster operations and maintenance. CashComplete™ Connect can be used for central monitoring and connectivity with external store systems for higher automation.
