

ADVANCING YOUR FIELD BASE PERFORMANCE

mei | PPM Advance

The next generation of MEI support tools, the PPM (portable programming module) Advance, now offers more flexibility in determining how to maximize operations. Increased memory, multiple languages and a display screen, along with the option to upgrade to Bluetooth connectivity, make the PPM Advance a more powerful tool—further lowering cost of ownership associated with MEI products.

Benefits for original equipment manufacturers:

- Minimize inventory by profiling standard units
- Fast downloads for an “in-line” manufacturing process

Benefits for operators:

- Fast and easy updates in your MEI field base for:
 - currency data
 - configuration data
 - software
- Monitor performance of your MEI units
 - view audit data on your PPM
- Enhanced functionality with Bluetooth capability including
 - software downloads as needed
 - creation of asset numbers for EASITRAX® Soft Count

Please contact your Suzo-Happ sales associate to learn how MEI PPM Advance can be implemented into your overall system and into your operation's profitability.

TECHNICAL FEATURES

MEI PPM ADVANCE

PN: 252009173P1 - Standard

PN: 252007174P1 - w/Bluetooth

- Supports CASHFLOW SC and SC Advance
- Operates with STS v7.05 or greater
- Enhanced memory to store multiple variant firmwares
- Display screen and menu navigation
- Note acceptor configuration, file handling, audit reporting and diagnostics
- Labels firmware for individual needs (i.e. OEM specific identification)
- Magnetics which secure unit to MEI note acceptor
- Product identification with individual serial numbers
- Read audit data on-site
- Multiple languages
- Operates on three standard AA batteries

Bluetooth Capabilities

The Bluetooth functionality provides enhanced communication features for operators through an Android phone and tablet app. Operators will now be able to remotely download software from their secured internet/ intranet locations as well as add EASITRAX® Soft Count asset numbers. PPM Advance becomes easier for operators to perform operations, maximizing download and maintenance procedures.

MEI STS Advance

PN: 252069074

- Supports CASHFLOW SC and SC Advance
- Interfaces/controls PPM Advance
- Reconfigure for new currency data
- Instant solutions to security problems
- Collects and reports audit data *
- Diagnostics servicing
