Transform Your Cash Handling

The CashComplete™ RCS-500 transforms your cash handling into smart cash management, improving your business at all levels. The robust design together with the unique software connection and proven technology, make the RCS-500 Solution a strong back office solution for any market.

Explore an Efficient Cash Cycle all the Way Around

The steady flow of cash into your back office needs to be counted, allocated and secured quickly and efficiently. With the RCS-500 you take control of your cash through an efficient cash cycle all the way around, from internal note handling to CIT operations. This ensures both time and cost savings, as well as an increased customer service.

Withdraw float for day

Customer transaction

Internal Cash Flow

Deposit cash at end of day

Float delivery

CIT Cash Flow

CIT cash processing

Remove excess cash

Improved Productivity

Simplify daily tasks from counting and managing till content, reconciliation and reporting in-store cash, which allows the staff to be deployed into higher value activities. Our on-site software coupled with the RCS-500 provides full visibility and accurate reporting of your cash cycle.

Decreased Working Capital

CashComplete™ software provides accurate and efficient management of in-store cash holding requirements, allowing you to deposit surplus cash into your bank. Our enterprise software makes it simple to monitor your inventory position in real time across your business.

Increase Efficiency

The RCS-500 fully automates your cash handling to speed up the process allowing you to spend less time managing your cash. Automated till dispense will increase efficiency at the start and end of shifts, reducing human reporting errors and increasing accountability. Bulk note feed available for increased depositing efficiency.

Turn Cash into Real Value

The RCS-500 is a powerful back office cash automator within hospitality, retail, leisure and public transport. Make this smart solution part of your daily operations and decision making, instead of spending hours on administration and counting. This ensures quick return of investment through dramatically improved cash management.
