All around Vending & **SUZOHAPP**

## SUZOHAPP Coin Box solution for HORECA and Table Top vending machines

The Coin Box offers solution to machines not equipped with payment systems interface and dedicated mounting space. Thanks to the Coin Box, those kinds of machines can be connected, for example, to a Currenza C<sup>2</sup> coin changer providing coin acceptance and payback, which means a full self-service solution.

The Coin Box also includes the necessary interface board to communicate with the selected machine, the mechanical parts to install the coin changer, coin insertion channel, reject lever, payout and return metal cup, cash box and security lock.

**Coin Box - A compact, robust and attractive solution to expand your machines operation.**

## WorldKey private cashless advanced functionality continues to expand (4)

Following our customers' requirements, SUZOHAPP keep constantly developing unique new functions to enlarge the existing WorldKey cashless readers options. The new added functions confirm WorldKey as the most advanced private cashless systems offering in the market.

Here is a taste of the most recently implemented functions in addition of the ones mentioned in our previous What's New edition:

- **Mass Storage Management:** Connect a pen drive to extend a recorder logs, upgrade firmware or clone configuration
- **Extended log:** Traces not only cashless transactions but also cash vend
- **Prices tables via Handheld:** Uses EVA-DTS command through handheld and infrared communication
- **Desfire Management:** Offers use of Desfire / Desfire EV1 media frequently implemented in access control applications
- **Unico Software security codes:** Possibility to hide codes to restrict access
- **Extra Timing Zones:** Extends up to 10 times zones

All WorldKey functions can be easily programmed using the Unico software. The Unico is now also available for Windows based handheld devices

## Strong VENDEX for SUZOHAPP

The VENDEX show in Manchester (UK) has been an excellent opportunity for the SUZOHAPP team to show its latest solutions alongside its well-known product and solutions range. The stand was thus very well attended on this extremely busy day.

The SUZOHAPP team took the opportunity to ensure that visitors were well informed on the impact of the new £1 coin that will be issued early 2017. This naturally affects the SUZOHAPP key vending product – the Currenza C<sup>2</sup> coin changer. Interest for the P6 solutions was very high indeed.

Nick Norris, Sales and Technical Manager UK and Ireland at SUZOHAPP, explains the buzz of the show: "The Vendex shows offer us a great opportunity to catch up with our friends from the industry as well as meeting new faces. This year the show was one of the best we have attended and we would like to thank everyone that visited our stand. We look forward to see you all at the Vendex 2017".

## A GLOBAL PARTNER TO BETTER SERVE YOU

SUZOHAPP is a **diversified manufacturer of components and solutions for self-service machines**. The solutions include control devices and systems, currency handling equipment, display solutions, environmental products, machine operation components and payment systems.
