

CASHFLOW SC PN Architecture

The CASHFLOW SC model type table is shown below. Typically a string is encoded within each CASHFLOW SC identifying the model type to outside hosts/clients.

Product	Cassette Size	Bill Path Width	Family	Interface Option	Options	Description
SC	(none)					CASHFLOW SC
	M					600-note cassette
	L					900-note cassette
	XL					1,200-note cassette
						2,000+-note cassette
		66				66mm bill path (US)
		76				76mm bill path (Canada)
		83				83mm bill path (Intl)
		85				85mm bill path (UK)
				0		Gaming downstacker
				1		Gaming upstacker
				2		Retail
					1	RS-485 (Armor Safe Only)
					2	Netplex IGT specific
					4	Netplex IGT specific
					7	RS-232
					8	Retail USB
					E	EASITRAX Soft Count
					F	Deep cashbox
					N	No cashbox
					NE	No cashbox w/ EASITRAX
					R	Retail kit
					RL	Retail kit w/ cassette lock
					T	AWP cashbox
					TE	AWP w/ EASITRAX
					U	IGT USB
					UE	IGT USB w/ EASITRAX
					W	EBDS/SPC USB
					Y	EBDS/GSA USB

Note 1: Retail models ending in 21, 27, 28 do not incorporate a barcode sensor.
 Note 2: EASITRAX model types will ultimately be available on most variants.
 Note 3: Additional USB model types incorporating IGT-specific, GSA-specific and, potentially, MEI-specific protocols may be developed.

serial number format	
45581679490	First two digits is the week of the year
45581679490	Third Digit is the year.
warranty	Warranty carries a 3 year and 3 months
